A PERSONAL NOTE FROM DAVID

If you are interested in developing professional proficiency in the methods that I have developed, please consider enrolling in this program. Over the 2 1/2 years of this program I will be reducing my speaking schedule and some other responsibilities so that I can devote time and attention to every student. Frankly, it is unlikely that I will offer this in-depth training again. Obviously, this is not a learning

program for everyone, but if you do enroll, I can guarantee that this will be an enlightening experience and you will participate with a small community of other students and with me on a journey of discovery. And perhaps most importantly, I am committed to making sure that you master the ideas so that you can use them at a professional level if you wish to.

If you have any questions, don't hesitate to contact us either by phone or email!
